The EU General Data Protection Regulation (GDPR) is a significant piece of European legislation which came into force in 2018. This legislation will still effect the UK post-Brexit especially our business where we process data for individuals within the EEA and EU.

How will ARC:MC comply with the GDPR?

Our GDPR preparation started in January 2018 and as part of this process we are reviewing (and updating where necessary) all our internal processes, procedures, data systems and documentation to ensure that we are ready when GDPR comes into force in May 2018.

Our GDPR Principles are:

- Processed data is adequate, relevant and not excessive
- Processed data is accurate and, where necessary, kept up to date
- Data is not kept longer than necessary
- Data is processed in accordance with an individual's consent and rights
- Data is kept secure
- Data is not transferred to countries outside of the European Economic Area ('EEA') without adequate protection
